Dear Joe,

Also, fantastic show on the 23rd. It made my birthday very fun. I loved the new Buddy Holley-esque song. All of my friends really loved the show and were very impressed with the Beatles set. You guys are the best in my book. You guys can give Setzer/Straycats a run for their money any day of the week.

### **Patrick Brogen, CEO Artsquest and Musikfest**

You guys rocked, thanks for a great show!

I believe the people you are mentioning with the video equipment was Service Electric Cable TV - they were filming, in times in high def, for their Musikfest programming channel that runs live. If you contact them, they often point you towards a website where you can download a copy of your show for your own uses.

Best,

Patrick

### **Thayrone, Coolarity Radio, THE BONE CONDUCTION MUSIC SHOW**

Not only did I get, I've been spinning it. You are on a show that will air (my two-hour syndicated public radio version) late October. I produce that show way in advance. And you are on my next four-hour commercial show that airs next Sunday September 26th in Ann Arbor on WAAM.

All my shows, after they hit the AM and FM stations that carry them, are run on my website on Coolarity Radio. I rotate all shows, the four-hour most current show runs throughout the following week of air-date a bunch of times (hope that makes sense). Those shows are on my ARCHIVE page for about a month, I rotate those too.

And you should check out my PLAYLIST pages (nothing like them!), you'll see The Headers on those pages next week.

I dig your band! Y'all got a real good thing going on. If you get played on my show...you know you're doing it right. Please DO check it out, runs 24x7 on: <http://www.thayrone.com/>

Get into that site, lots there, cat...and get me anything else you want to hit the air waves,

THX P.S. Keep up the good work, you all deserve raises!

**Dell, Motorbilly Radio**

Scott,

Yes! I got the CD and have had songs from it in the mix for the last 2 weeks. sorry for the delay in responding -been a bit crazy these last few weeks as my son has been sick and home from school (oy!).

Lovin Stuff and Pretty Good Shape have been my favorites so far...!

Have you had a chance to listen to the show or the station yet?

-Del

Hi Scott,

Sounds great - I really like your music, it is great.

I was thinking of you and the Headers on Christmas, when your album was playing in my car's radio in heavy rotation.

Just use the address down below in this email.

Greetings to everyone,

Thanks for your submission and interest in Tropical Heat wave. After seeing you at the Ruckus, I wish we had selected you for Heat wave. But now we are out of stages and money.

The Christmas CD is awesome too...will come in handy next month!! :) Thanks for supporting the show! Be sure to keep in touch...and if you guys ever find yourself in CT looking for a show, don't hesitate to ask...I book regularly at a couple different venues here.

Take care & talk soon,

Michelle
